

"Affordable Elegance" Product Line

CtoS™ Converter

Do you have a need to convert composite video to S-Video? Do you have a device that only puts out composite video, but you only have S-Video inputs?

Pragmatic has the answer. The HideAway™ series CtoS™ is the ideal choice for an affordable and elegant solution. Composite video signals can now be converted to S-Video with the Pragmatic CtoS converter. With the CtoS Converter you get professional quality video out of a device that is only 2 1/8 inches long by 3/4 inches in diameter; it can be placed almost anywhere!
