FOR IMMEDIATE RELEASE

**PRAGMATIC LAUNCHES THE TRUE MUSIC™ - AN EXCEPTIONAL
PERFORMANCE WIRELESS AUDIO SYSTEM**

(Santa Clara, CA, July 9, 2003) - Pragmatic Communications Systems, Inc., innovators and leaders in wired, and wireless audio/video control and signal distribution, has started shipping new and improved TrueMusic™ Digital system. The system is a powerful wireless audio transmission system capable of producing audio frequency response up to 24 KHz, with less than 0.5 dB error across the band. The TrueMusic™ system is a versatile application for wireless home theatre and multi-room Dolby Digital Audio distribution

Pragmatic's TrueMusic™ system supports digital PCM data and DTS. The system features a transmission range of about 300 feet, with 50,000 uV/m @ 3 meters. The system supports an audio input of 1.0 Vpp at 100 K Ohms, and output of 1.0Vpp at 100 Ohms. The receiver boasts an extraordinary frequency range of 2.4 – 2.43 GHz, whereas the frequency response is another astounding 20Hz – 24 KHz.

In addition, the system is available in 902 – 928 MHz, and the superior transmission is reflected with a very low noise level of –90 dBV.

Other specifications include Stereo Channel Crosstalk of –90 dBV. The system also features a great THD (Total Harmonic Distortion) of 0.03%. It also has an automatic mute mode. The radio waves transmit through most standard

building materials, except exterior aluminum sidings and stucco with chicken-wire backing.

The transmitter has dimensions of 2.4" x 1.6" x 1" and weight approximately 1 oz. The receiver has the dimensions of 5.5" x 3.3 x 1" and weight approximately 5 oz.

With a two-year warranty program, Pragmatic ensures quality, affordability, simplicity, reliability, and pain-free installation for this system. Please call Pragmatic at (408) 735 0300 or email sales@wireless-experts.com for further inquiries, or to place orders.

Pragmatic Communications Inc., located in the heart of Silicon Valley, was founded in 1994 by award- winning engineer Prasanna Shah. Based in Santa Clara, CA., the company designs and manufactures its products in the U.S., and internationally for both professional and consumer markets.

Pragmatic, known for its proprietary CATS™ technology, provides products that are used throughout the world in demanding life-critical, educational and entertainment applications. The company's products are marketed exclusively to professional systems contractors. You can visit the company's web site www.wireless-experts.com
