

» PPS-24RWD

High-performance Pendant Speaker

Wide Dispersion Pendant Speaker

The PPS-24RWD consists of a unique wide dispersion radiating circular panel which offers a very well-defined wide dispersion with no hot spots. The PPS-24RWD is a pendant ceiling speaker designed to be on its own or be paired with a variety of music distribution systems used in industrial and commercial applications.

The PPS-24RWD pendant ceiling speaker is very easy to mount in the standard commercial open ceiling environment.

Additional options include an external HideAway™ amplifier and a PADS™ or TPA receiver. So whether you are looking for a high-performance speaker in a hotel, restaurant, theme park, corporation, school, hospital or department store for a very controlled wide dispersion sound field, the exceptional sound quality from PPS-24RWD will be suitable for all needs within the A/V market.
