

» PSUB-10.2WB

High-performance **Network Audio Streamer** 2.1 System for Multi-room/Multi-Zone Applications

Product Description

Pragmatic PSUB-10.2WB is a high-performance Network Audio Streamer System with built-in 4x1 audio input selector switch, Ethernet, WiFi, Bluetooth, USB input, AUX stereo audio input, an integral 10-inch sub-woofer and two amplified stereo outputs for external speakers.

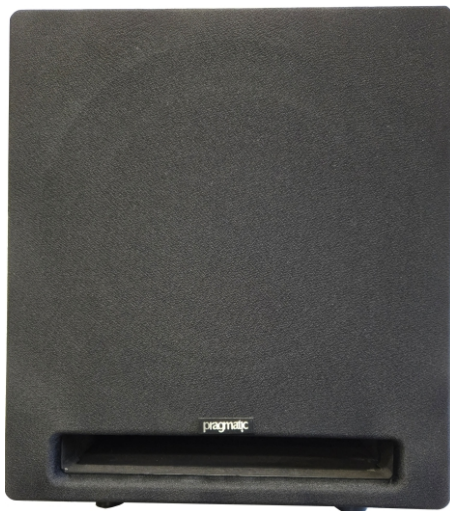

It is designed as a Network Audio Streamer System for wireless multi-room, multi-zone audio system. The active **1x180 watt subwoofer** and **2x150 watt stereo outputs** are ideally suited for a simple and elegant 2.1 audio system setup in any room.

No need for additional electronics. It's all in the PSUB-10.2WB.

Pragmatic PSUB-10.2WB supports many popular services like Spotify, Qobuz, Tidal, AirPlay, iHeart, TuneIn, Amazon Music, vTuner, Pandora, Deezer, Roon Ready, DLNA, NAS, QQMusic, Napster, BBC Radio, Open Network Stream, Radio Paradise, internet radio, etc.

The system is easily controlled with many popular third-party Apps like WiiM, 4Stream, AudioCast, Audio System, etc. These Apps can be downloaded on a smartphone or tablet from Google Play or Apple App store.

PSUB-10.2WB crossover network is designed to match with the frequency response of all the Pragmatic PHA family of line-array speakers as well as the Pragmatic in-ceiling and in-wall speakers.

Applications:

- Multi-room WiFi audio streamer systems
- Living room / Flat Screen TV 2.1 systems
- Applications in restaurants, hotels, offices, corporate boardrooms, classrooms, etc.

Feature & Benefits:

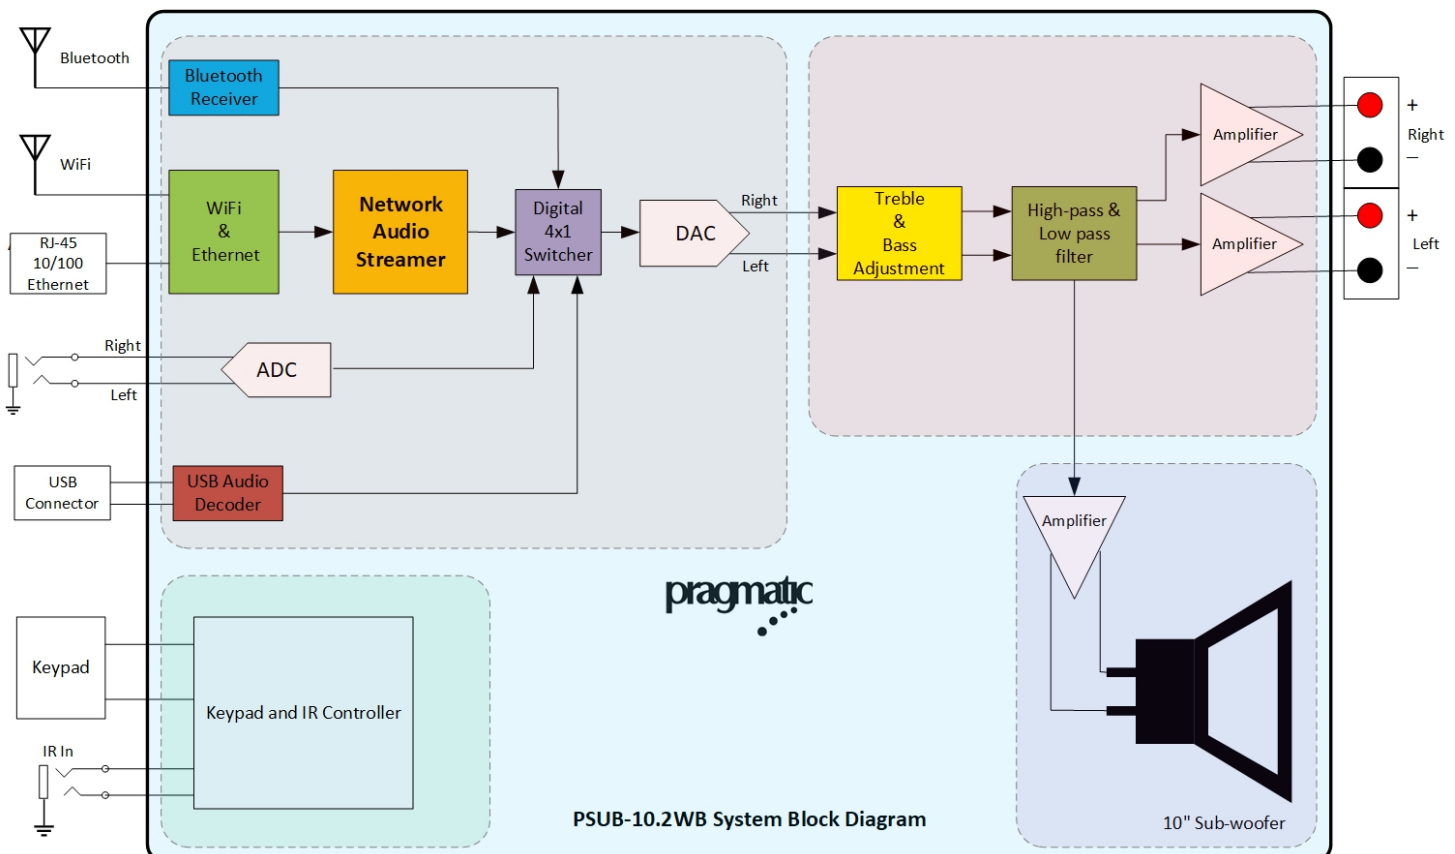

- Compatible with all Pragmatic PHA speakers
- Matched to In-ceiling & In-wall speakers
- Simple, elegant and powerful 2.1 system
- Energy Efficient design
- Built-in 4x1 audio input selector switch
- Wireless music input from WiFi & Bluetooth
- Local music input from USB or AUX
- Crossover Frequency and Phase adjustment
- Play online music, Internet Radio, Airplay, DLNA
- Simple operation with many third party Apps
