CATS™ Keypad

With its elegant solid brush aluminum design, it complements any stylish interiors. Some other features include a built-in temperature sensor, IR detector, and ambient light sensor. This attractive CATS™ Keypad also comes with other colors of your choice.

Pragmatic is proud to introduce *innovative* products that accommodate your lifestyle and needs with seamless *integration* of audio, video, lighting and security systems. In your home, you can *comfortably* enjoy music in the kitchen, your children can watch their favorite movies, or your baby can sleep soundly to the nursery rhymes. You can control the lights anywhere in the home or out to the patio, *conveniently* from the comfort of your living room. You can also feel *secure* and at ease seeing from anywhere of the house that your children are safe watching their movies, or your baby sleeping, or your guest arriving at the front door.

Whatever your lifestyle choices are, Pragmatic has the products to make your dreams a reality at the touch of a button, which you can easily access remotely from your office computer, or your laptop *conveniently* at the pool.

The Pragmatic CATS™ series is a revolutionary whole-house audio and video distribution, audio amplification and control system. CATS™ let's you enjoy music, movies or news in any room of your home. With the CATS™ system as mission control, whether you are living in a small home or as big as a mansion, you have complete interactive full access to your source equipment and audio zones. This practical and *innovative* system provides unequalled picture and sound quality. CATS™ is compatible with existing hand-held universal remotes, such as Philips Pronto and other third party controllers. With its versatility, CATS™ is easily expandable for future sources.

CATS™ enhances your life, it doesn't complicate it.
